

Price Transparency

As of July 1, 2019 all primary care clinics in Minnesota are required to make prices for the 25 most frequently billed services available to our patients. We welcome this opportunity to demonstrate our commitment to providing low cost, high quality care. Please contact us with any questions.

The amounts listed do not reflect the amount that you will pay for your services. In some instances, your health insurance company may have negotiated a rate on your behalf which could be higher or lower than the average listed. For more information, contact your insurer for an explanation of benefits. The list does not reflect all services that we provide.
